

120 degrees full height turnstile

ZOJE-Z2001® 120 degrees full height turnstile is the full height of the basic model. It is made of high-quality stainless steel for durable outdoor use. ZOJE Full Height Turnstile Gate can be divided into full automatic full height turnstile and semi-automatic full height turnstile. ZOJE Full Height Turnstile design the mechanical anti-tailgating, full-automatic full height turnstile gate can effectively achieve “one person passing at a time”.

120 degrees full height turnstile

Full height turnstiles operate like a revolving door. The only difference is that it allows only one person at a time to get accessed by automatic locking after one entry is finished. It would be impossible for someone to crawl under or climb over these full height turnstile gates as they offer maximum security.

ZOJE-Z2001® 120 degrees full height turnstile can choose single channel or dual channel according to your project needs.

It comes with standard semi-automatic version with solenoid unlocking, automatic version with different motor unlocking as optional choice.

It can be integrated with any kind of access controller system (e.g.: RFID device, Push button, Fingerprint and Biometric device).

We are also professional customize as your idea or project. Contract with our sales get a professional and suitable solution for you

Product Parameter (Specification)

	Standard	Optional
Turnstile Type	120 degrees full height turnstile	–
Dimension	1500*1240*2250mm (L*W*H)	Customized
Material	304 Stainless Steel	316 Stainless Steel
Channel Width	600mm	900mm /Customized
Drive Type	Semi-Automatic (Solenoid)	Tempered glass/Red Soft shell
Direction	Single / Bidirectional	Brushless/Servo motor
Power Supply	AC110-230, 50/60Hz	–

Operation Voltage	DC24V, 3A	—
Unlock time	0.2S	—
Function	Fail safe	—
Working environment	Indoor & outdoor	—
Working Temperature	-70 C -15 C	—
Relative Humidity	Less Than 95%, No Condensation	—
Pass Speed	35/Minute	—
Input Interface	Dry contact/Relay Signal	—
Communication Interface	RS485/TCPIP	—
LED Indicator	Yes	—
Emergency	Unlock Automatic	—
Access Control	Can be integrated with any kind of access control system.	—

Product Feature And Application

ZOJE-Z2001 120 degrees full height turnstile

- Unique technology: Fully automatic is optional for smoother, quieter operation and longer service life
- The material is made of industrial grade stainless steel 304 or 316, which is durable and can be installed in harsh environments
- Its anti-tailgating function is relatively high and can achieve unattended management.
- Equipment With Traffic Indicator
- Equipment With Automatic Protection, Automatic Reset
- Unified standard external electrical interface, which can be connected with various reading and writing devices (ID Card / IC Card / EMcard / Fingerprint Face Recognition / QR Code / ESD system)
- ZOJE 120-degree full height turnstile widely used in places with high security levels, and can be easily integrated with your existing control software.
